

MND Education

We have a **monthly e-newsletter** with details of all the latest education events and information resources related to MND for health and social care professionals. Sign up here - <https://www.mndassociation.org/professionals/professional-education-and-development/sign-up-for-our-education-update>

Calendar of events – here we advertise all of the education events and opportunities that will support your CPD from webinars, conferences, conversations with, masterclasses and workshops. New 2024 events are being added over the next couple of months. View the calendar here - <https://www.mndassociation.org/professionals/professional-education-and-development/education-events>

Free **MND education webinars**. Webinars are run throughout the year; lasting no more than 90 minutes and online. You can sign up to attend through the calendar of events. You can also access our webinar recording library of previous webinars here <https://www.mndassociation.org/professionals/professional-education-and-development/webinars> - the webinars are grouped into topic areas.

The **MND Professionals Community of Practice** is a peer led group of HSCP encouraging and supporting the development of good care for people living with or affect by MND. The CoP offers dedicated training online and face to face. We also offer a dedicated Facebook community to link and share with other members. You can find out further details about the CoP and sign up here <https://www.mndassociation.org/professionals/community-of-practice>

Online courses – we offer online learning modules which can be completed around your work commitment. More details on the range of courses we offer can be found here <https://www.mndassociation.org/professionals/professional-education-and-development/online-courses>

Professional resources – you can access a range of evidence- based professional publications here <https://www.mndassociation.org/professionals/publications>
